BENJAMIN BRAZWELL.

The Story of a Remarkable Life Detailed.

TWICE ROUTED BY THE INDIANS.

His Last Great Grief—His Noble Benefaction for the Good of His Race—Other Details.

MADISON, Ga., December 3.—[Special.]—Madison has been on a business tour this fall, and cotton has rolled in from all the adjoining counties at a lively rate. There are more people on the streets every day of the week than any other town of 3,500 population in Georgia. Madison is an old town, with much solid wealth. There is an air of youthful vigor that bodes well for a brightening future. Madison and Morgan counties are old. The former was a place of note long before Atlanta was thought of, and even Marthasville was the haunt of deer and squirrel. But she has given many bright men to adorn the pages of history. While there are many incidents in the past over which the future historian will pass in his musing, incidents that will brighten like a sunbeam 'gainst the cold wall of silence.

For instance, there stands in the corner of the courthouse square a large marble shaft, with this inscription: "Erected by the judges of the inferior court and trustees in memory of Benjamin F. Brazwell, who departed this life in the year 1817, leaving a sufficient bequest for the benefit of the indigent orphans of Morgan county, and for years to come the recipients of his bounty will rise up to bless the name of this noble Christian philanthropist."

He is buried in the cemetery just below his monument, and they will tell you: "Oh, that is Brazwell's monument, the old fellow that left a big sum of money to educate poor orphans!" Ask them where he is buried, and they will tell you that can't be told, and where he lived, and where he was born, there are few still that know anything about it. Of the many hundred orphans that have enjoyed the bounty of his noble gift, it is extremely doubtful if there is one that knows his origin. Yet, the northeast corner of the city is a rough place that covers the dust where lie one of nature's great noblemen, and whose history, if tradition be true, reads like the pages of romance. There is now living but one or two persons that knew him personally. It is from these mostly, and by diligent research, that we have gathered the facts little by little and piecemeal to this date.

In about the year 1762 Charles Brazwell and his faithful wife Mary died on the Scotch shores, and breasted a tempestuous sea to cross the Atlantic to the New World. They settled in Carolina, near where the states now join, and for years lived amid the incidents of pioneer life. Three children were born to them, Mattie, Sarah and Benjamin. When the war between England and the colonies began, Charles Brazwell embraced his weeping wife and children in a last fond adieu and marched away never to return. He was killed at the "Cowpens." One bright Sabbath morning while the widow was instructing her children, and trying to impress upon them the need of fidelity, she was startled by a savage war-hoof, and before it could be realized mother and daughter were slain. Young Brazwell had rendered a kindness to one of the Indians; this saved his life, but he was made prisoner. That night he escaped, received a cut, and soon after which he carried his wife to the sea. He managed to get to an uncle's house, that lived in Raleigh. Here he grew up and married Miss Amanda Hawks, the village belle. But he was possessed of a spirit that still longed for the frontier life. In 1783 he emigrated to Georgia, setting on the dangerous border, next to the "Indian line." Here, with two slaves, he made a comfortable home, and lived in the peaceful pursuits of a farmer. Two lovely children were born, and all went well until one summer evening when he and his master, his son, and his daughter were slain. Young Brazwell had rendered a kindness to one of the Indians; this saved his life, but he was made prisoner. No one knows what the poor man suffered. He could no longer bear the horror of the scene that was laid on the floor of the Georgia county school. He did not move away; he did not seek vengeance; he went quietly along, so far as we can learn, but became strangely reserved and quiet, never going anywhere. He lived as a hermit. Thus the pioneer became one of the most singular moving in to settle the country, that was an old bachelor. This belief prevails to a great extent, to this day. When, in 1817, he died it was found that all his estate and slaves had been left to be converted into money for the benefit of the orphans of the county, vesting the fund in the hands of the judge of the superior court. The will provided that his slaves should choose their own master. One of them, nearly one hundred years old, is still alive. The Brazwell fund, as it is called, began to accumulate rapidly, as there were but few slaves in the state that would avail themselves of its bounty; people however too rich, not too proud. When the will broke out it amounted to some \$75,000, but during that stormy period, owing to the fact that the fund had swelled down to some three thousand dollars. Since that time, in the careful hands of the ordinary, it has rapidly increased, amounting now to some \$30,000, invested in Georgia bonds and Georgia railroad stock. Morgan county also owes the fund some \$7,000. Without bad luck, the fund will be converted into a sum that will swell to enormous size, and it probably will be eventually used to build a Brazwell college. Thus has been given a short sketch of the life and deeds of one whose history heretofore has been shrouded and even now is revealed only through the mist of tradition. All honor to the memory of Brazwell.

SHOT THROUGH THE HEAD.

The Accidental Death of a Gwinnett County Man.

LAWRENCEVILLE, Ga., December 3.—[Special.]—Young George Whitley accidentally killed himself yesterday morning, while in the act of loading his gun. It is said his uncle Joe was running the cotton from the officers, and for some reason carried the gun from Joe's house when he left. As the gun was taken down while it went off in Joe's hands, and tore his wife's clothes into ribbons. He then decided to load it alone. George persuaded him to carry it alone. He then loaded it, and they started. They stopped at young George's to get fodder for the oxen, and after putting it under the cotton, George, who had the gun, undertook to put it under the load. And it went off, the load entering his left eye and blowing his head to pieces, he expired at once.

ONE HUNDRED YEARS OLD.

A Veteran of the War of 1812 in Crawford County.

TAYLOR, Crawford county, Ga., December 3.—[Special.]—Mr. Daniel Hulio, a planter near here, at the age of one hundred yesterday. Mr. Hulio had been a soldier in this section a good number of years, having been among the earliest settlers of the county. He was a volunteer in the war of 1812 and remembers incidents that occurred as far back as 1792. His aged and feeble health would not permit him to take part in the struggle of 1861. Nevertheless he cherished the cause and advised his only son to volunteer at the age of seventeen. Mr. Hulio has been enjoying first-rate health for several years until a few weeks back. His health is now feeble and it is feared that his stay with us here will be short.

THE DUNNY CAR.

KOOGA, Ga., December 3.—[Special.]—Dunny car made the trial trip today, which was very successful. The line will be in operation in a few days.

BIRD AND DOG.

From the Carlton, Ga., Press.

Will Hay killed the bob owl Wednesday night. It measured 53 inches from tip to tip. From the Hartwell, Ga., Sun.

Mr. Dave Alford captured a wild goose and brought it to town alive last week. It is a beautiful bird, and in fine condition. Dr. Mathews is the fortunate possessor.

From the Marietta, Ga., Times.

Marietta has more pointer dogs than any town in Georgia. Full Alcock has 13, Marcus Sperry 12, and a large number of others having less than a dozen.

\$300,000 DAMAGES.

W. B. Lowe & Co. Sued for a Big Pile of Money.

AUGUSTA, Ga., December 3.—[Special.]—Probably the largest damage suit ever brought in the state of Georgia is in the office of the clerk of the superior court. The suit in question is brought by the Augusta and Chattanooga railroad company against Messrs. W. B. Lowe & Co., contractors, and is for \$300,000 damages. The bill alleged that the damage consists in this, that they had \$75,000 in conductors, which were sent to the various counties on the line, in which counties they were compelled to have commenced work before any of that amount could be collected, and they claim that each conductor cost \$1,000, and in order to allow the road to collect the subscriptions.

They failed to do, after the engineering corps had gone over and staked off a line at a cost of \$500. It then alleges that without notice to the contractors the road claims to those contractors were reduced to the amount of \$300,000. Messrs. W. B. Lowe & Co. deny it all, and claim that it is only a bluff to force them to compromise, and their (W. B. L. & C.)'s claim of \$300,000 against the road is just, and they expect to get it. Messrs. John S. W. Davidson and Lester L. Phinizy & Twigs and Verly W. B. Lowe & Co. The suit was only filed this afternoon, and when it is known will be a great surprise to everyone.

THE COLLEGE SOCIETIES.

The Orators for the Two Societies of Mercer College Elected.

MACON, Ga., December 3.—[Special.]—This morning was the time appointed for the election of orators and debaters in the Ciceroan and Philanthropic literary societies, and the contest for the position of anniversarians and debaters was spirited but friendly. There is always great rivalry among the members of the secret fraternities for these places. The anniversaries were celebrated in May at Mason's hall, by an address from each anniversary of the two societies. The public debate will occur at the same place in June next, Friday evening, immediately preceding commencement Sunday. The question has yet to be decided.

Colonel Peter W. Martin has secured control of the Woodbury W. Blast, and will be re-elected with that paper, and the Atlanta and Columbus papers. Colonel Martin has decided to give up this line of work, and will easily bring his paper to the front rank of country journalism.

The retirement of the Messrs. Howell from the Gibson Enterprise is a decided loss to the Georgia press. The proprietors and in every way capable, their labors at the paper have reflected high credit upon themselves and upon their appreciative patrons. Messrs. E. B. Rogers and Z. T. Thigpen are now in charge of the Enterprise, who will keep the paper to present high standard.

Mrs. Mary S. Dryden, wife of W. Smith Dryden, who lives on Littleville from Ball Ground, Ga., elapsed with one Andrew Harper recently. Harper is a man of about thirty-six years, dark, curly hair, sandy mustache, very freckled, dressed in blue clothes when last seen. He leaves a wife and three children, a wife, a son and a daughter and two children. She is thirty-three years of age spare make, dark hair and eyes.

A difficulty occurred on Hon. Henry Harry's Petit place, in Meriwether county, last week, which came near being a homicide. One negro became incensed with another, because he was accused of killing his comrade. He gained his grievance, loaded his gun and came back and without warning, emptied its contents into the face and breast of his accuser. Fortunately he was not quite near enough to kill, but the man was very painfully wounded.

Louis Moore, the negro who killed Ransom Williams a few weeks ago, was captured Wednesday night in Oglethorpe. "There had been no effort whatever made to arrest him heretofore, and he had become very tame. It was reported on Wednesday afternoon that he was at his home on Dr. Knight's plantation, and he had been away for four days. It was conjectured that one had been sent to him with instructions to kill any one who attempted his arrest, but four or five men went out and brought him in without any trouble. He confessed the killing, but claimed that he did it in self defense.

A difficulty occurred on Hon. Henry Harry's Petit place, in Meriwether county, last week, which came near being a homicide. One negro became incensed with another, because he was accused of killing his comrade. He gained his grievance, loaded his gun and came back and without warning, emptied its contents into the face and breast of his accuser. Fortunately he was not quite near enough to kill, but the man was very painfully wounded.

SPEAKER CARLISLE.

He is Nominated by the Caucus
Without Opposition.

BLOUNT AND BRECKENRIDGE FIGHT

An Exciting Scene in Caucus Over the Door-
keeper—The Republicans Hold
a Meeting.

WASHINGTON, December 3.—[Special.]—The most exciting race for doorkeeper of the house in years took place tonight. The democratic caucus was in session nearly six hours, and over half the time was devoted to the door keeper. Clark, Dalton and Leedom were renominated for clerk, postmaster and sergeant-at-arms without opposition. For doorkeeper Donelson, of Tennessee, and Hurt, of Mississippi, were the leading candidates, the balance of power being held by Raines, of New York, who, up to two days ago, was in the race for clerk. Donelson lacked thirteen votes of a majority on the first ballot, and the New York delegation, which had been supporting Raines and his other supporters, went over to Hurt, thereby electing him. Hurt had been an officeholder in Washington for years, and is regarded here as a phenomenally lucky man, having always been fortunate in getting good offices and plenty of them. He is a man of about forty, handsome and generally popular. Breckinridge, of Arkansas, made a bitter speech in opposition to Donelson, attacking his personal character and official conduct.

Hon. J. H. Blount, of the Macon district, replied to Breckinridge, and in his speech said something that caused the Arkansas

member to withdraw his resignation.

A REPUBLICAN CAUCUS.

Republican held their annual caucus of the session

this afternoon. Of the republican representation

of 153, 117 members were in attendance.

None of the four independent members-elect

were present. J. G. Cannon, of Illinois, and

Louis Compton, of Maryland, were respect-

fully renominated for the positions they

held during the last congress, chairman and

secretary of the caucus.

When these preliminaries had been arranged, Mr. MacKinley, of Ohio, nominated Thomas B. Reed, of Maine, speaker, and the nomination was confirmed by acclamation. Mr. Reed made a brief speech, in which he spoke of the importance of a republic election victory in the next presidential election. Nominations for the remaining officers of the next house were then made as follows:

Edward Phelps, of Pennsylvania, for clerk;

David T. Patterson, sergeant-at-arms;

W. T. Smith, of Ohio, doorkeeper;

Charles H. Gray, of Dakota, postmaster; Fran-

cis W. Thomas, of Indiana, chaplain.

The nominations were agreed to without de-

bate, except in the case of Mr. Grey, over

whose nomination some objection arose

as to the propriety of re-electing the same

officer. The result was that the

majority had lowered to the will of the

minority and added that the attitude of M. M.

Brisson and Sadi Carnot was unworthy of re-

election. They voted to withdraw in favor of

M. De Freycinet or Ferry.

It was made known that the democrats held

a caucus in fact that day, and

that Senator Hearn, who begins a new term and is therefore, not yet a senator. Upon request of the

democrats, the caucus at once assembled, as pro-

posed by Senator Raines, who has charge of the

republican party in the state, and was invited

to speak. Senator Raines, however, did not

attend, and the democrats adjourned.

The democratic caucus did not adjourn.

Both sides held their meetings in the same

room, and the result was that the republicans

were beaten by a large majority.

The republicans then adjourned.

The republicans then adjourned.</p

ATLANTA, GA., DECEMBER 4, 1887.

A Debt of Honor.

If political parties can contract debts, or if gratitude is an element of party policy, the democracy of Virginia should make the Hon. J. S. Barbour United States Senator to succeed the late, but not lamented, Ma- home.

To Mr. Barbour, more than any other man, belongs the credit of having redeemed Virginia from the worst of political bondage. The general public was shocked when he was put aside at the last election for the Hon. John W. Daniel, who, showy and ineffective in the field, has been hardly as much in the senate.

The south has interest in all this. The redemption of Virginia means a solid south in the next electoral college. It means the union of the best people for the next four years and no factions scramble for the ignorant and purchasable vote. Mr. Barbour deserves the gratitude of the whole south of the democratic party of the country—and Virginia can pay the debt if she will. It removes the only possible objection to Mr. Barbour's election to say that he is a thoroughly able man and would represent Virginia with honor in the upper house of congress. We hope to see him elected without opposition.

The Baltimore and Ohio Telegraph company has passed out of existence; but young Mr. Garrett is still hitting the wire where it redest.

The National Poultry and Bench Show.

The extraordinary success of the first National Poultry and Bench show, held in this city a year ago, will attract exhibitors and visitors from all parts of the country to the second exhibition which takes place in January.

The poultry industry is one of the largest and most important in the country. The simple fact that it costs no more to hatch and raise chickens that will weigh eight and ten pounds than chickens that will weigh four to six pounds, and no more to keep a hen that will lay 220 eggs a year than one that will lay half as many, is worth thousands of dollars to our people. At the exhibitions are shown turkeys that will weigh from 50 to 65 pounds, geese and ducks twice as large, harder and more prolific than the ordinary breeds, and chickens that would literally make four of the regular country chickens.

These are object lessons that make themselves felt. They are arguments undisputed by all who see them. The result is more poultry and better poultry for Georgia and the south. An appeal is made elsewhere for a guaranteed fund to make the coming exhibition of the National Poultry and Bench show at Atlanta the largest and best exhibition of the year. We feel sure that our people will promptly and cheerfully make up this fund.

The Chinese delegation in Washington have been giving a pink dinner in Washington. A Chinese pink dinner with hungry Americans to eat it appears to be the proper paper.

A United States Prison for Georgia.

The CONSTITUTION has frequently, in times past, alluded to the necessity which exists for a United States prison in Georgia. That necessity is greater now than ever.

It is cruel to send men from Georgia to Albany to serve their terms, and it is equally cruel to throw them into the crowded county jails. We have seen some of the effects of this in Atlanta, where incarceration has amounted to a death penalty.

Only the other day a United States judge in Georgia discharged a number of prisoners rather than commit them to the inclemency of a county jail, and this judge is in favor of building a United States prison in Georgia.

Let congress, especially the Georgia delegation, take hold of this matter in earnest. It is a matter that needs attention.

YOUNG MR. DICKENS says that Niagara is "a place of abject terror." Young Mr. Dickens had probably been eating pie.

The Augusta Exposition.

The citizens of Augusta are working with great zeal and energy to raise money for a grand exposition in the fall of 1888. They have already raised a large sum of money and are continuing their efforts every day to increase the amount. The determination displayed by the people of Augusta and Richmond county to make the exposition a complete success will go a long way towards accomplishing that end, and we have no doubt that this will be the final result.

But there is one thing equally as important as money, after the amount necessary has been raised, and it is that they select a live, energetic, broad business man as the head of the exposition. Then put at the head of each department a suitable man to conduct the department under his charge. With men selected on this line to take charge of, and be responsible for the success of the exposition, there is no reason why the exposition will not be a great benefit, not only to Augusta, but to the whole south. Augusta has some of the best men to fill these places to be found in the state, and we do not doubt that the people of Augusta will give this subject proper consideration.

The good results to be expected from a successful exposition at Augusta next year cannot be overestimated. It will attract attention from the outside world to the magnificent water power in the city. It will bring notice, and create a market for the richest and most remunerative farming lands in the south. It will call attention to the valuable mineral deposits of iron, kaolin, oil, alum and other minerals that are in easy reach of that city. These are but a few of the many advantages to result from a properly conducted exposition.

Besides all this, it will serve to strengthen the local pride of its citizens, and the amount of painting and whitewashing and

cleaning up will astonish even the citizens of that proverbially neat city. These expositions come like holidays to a city. The municipality puts on its Sunday clothes. We speak from experience because we have had in our Sunday clothes twice, and know what we say to be true. We want to assure the people of Augusta that we are proud of their efforts, and THE CONSTITUTION will not be behind any paper in the state in helping all it can to make the exposition a grand and complete success.

The Britshers may as well open their eyes to the fact that John L. Sullivan and Buffalo Bill are the only representative Americans that have ever visited that aisle.

General Henry R. Jackson.

In another column we publish the preface to a pamphlet just issued by General Jackson, containing his Macon speech and other matter having relation thereto.

It presents a complete refutation of the criticisms which have been made upon the speech, and no unprejudiced reader can doubt that the principles of government enunciated are true and loyal, and of which any southern man might be proud. The effort to make political capital by those who sought to criticize, has been completely met by the clear statement of the doctrine of local self-government as the necessary foundation of every system which shall be permanent. Assuredly the national democracy—and especially the people of the south—are sacredly committed to this axiomatic principle.

General Jackson is loyal and devoted to the form of government under which he lives, and the capping criticisms upon his Macon speech, in which some have evinced a disposition to indulge, can only result in bringing a just obloquy upon themselves, while the grand pervading principle of his utterances will prove the foundation of the republican government, and therefore of the democratic party.

We commend the pamphlet to the careful attention of every reader. The perusal can only result in the strengthening of that intelligent patriotism which is necessary to the proper exercise of the rights of American citizenship.

The New York Sun thinks the conventions of the two parties should be held in that town. But isn't New York too big for that sort of thing?

The Land-Grabbing Corporations.

Secretary Lamar, in his report which is to be submitted to congress tomorrow, gives some interesting and important facts relative to the adjustment of railroad grants. He says that shortly after his appointment as secretary of the interior, he became more and more impressed with the fact that the legitimate purpose and converted to objects the same from settlement were revoked, and the lands restored to the public domain and to those who had a right to them.

He held that the withdrawal was legal, and that during its existence Miller could acquire no right or title to the tract claimed by him on which he lived. Whilst recognizing the correctness of the law, the president saw the injustice of the case so far as the individual settler was affected; and that hundreds of others were similarly situated who might and would be effected; and he directed that such grants should be so administered by the interior department as, if possible, to protect these settlers from such injustice, stating the belief that "this can be done under the provision which declares that these selections shall be made under the direction of the secretary of the interior."

On the 23d of May, with the president's approval, the secretary cited the various land grant corporations, for whose benefit withdrawals had been made, to show cause why the withdrawals should not be revoked. Some of the companies failed to show cause; others filed answers assenting to the revocation, as they had received satisfaction of the grant either in full or as far as possible; others asserted a condition that lands ceded by selection already made should be excepted from the order of revocation, and other companies objected to the order of revocation as illegal, and a violation of chartered rights.

Briefs were filed, and oral arguments accorded to the counsel of such companies as desired to be heard, all of which were fully and carefully considered, as was due to the importance of the questions involved; and on August 13, 1887, the secretary's views were fully expressed in a decision rendered in the case of the Atlantic and Pacific railroad company, which is to be published in the Register Return Receipt of the United States postoffice, in his hands on the 14th instant. The opinion of the secretary of the interior is contained in the associated press.

It establishes the fact that, with the fullest light before him, he adheres, in cold blood, to the "bitter and harsh address" not even repudiating for qualifying the vulgar words in which he clothed them. He has thus revealed the mortifying truth that, as appears from a Registry Return Receipt of the United States postoffice, in his hands on the 14th instant.

He has also taken to his bosom the secret of the "mysteries" of the Roman Catholic church of Washington, Georgia. It is to be hoped that this is true. To have the monotonous clangor of Sunday morning church bells broken by the sweet tones of a chime would be relief indeed.

"Why," said he, "that's a double bug's hole. There's lots of 'em in Ohio."

Then the new boy got on his hands and knees, and crawled up to the top of the funnel, and told one of his companions to watch the bottom of the hole. Then, in a low, buzzing, humming tone he said:

"D—o—o—d—e, d—o—o—d—e, d—o—o—d—e."

By the time this had been repeated three times, the boy in the bottom began to move, and the two formidable looking boys and the upper part of a hairy head rose in sight beneath the sand. Having brought about this astonishing revelation to his companions, the boy stuck a sharp stick deep in the sand, and, prying it carefully, brought up a feather, so green, so nearly the color of the sand, in which it had its home that it would be time taken to see the mysterious hole in the sand under the old pine tree.

"Why," said he, "that's a double bug's hole. There's lots of 'em in Ohio."

THE DOODLE BUG.

A Short Study In Natural History.

THE PECULIAR SAND DISTURBER

Now a Little Boy Called the Funny Insect to the Surface—The Great Ant Lion.

MILFORD, Pa., November 18.—As long as any one can remember there has been a small funnel-shaped hole in a sandy spot between the roots of a great pine tree, that stands at the side of the sheep path leading from a Milford back street down to the picturesquely-sawed kill glen. The hole is well up under the high bank, and protected by the roots of the tree. It was the abode of the stranger, unknown to him, he was a naturalist looking about for just such a sight. But its existence was well known to the inhabitants of the village, who long ago ceased destroying it, as it regularly appeared in its old place after a few days. The campers who had several communities delining themselves the day after young Hightower's death. They had better be silent on a city election.

But the registrars have not been kept as busy as is the usual custom. The registration has been in this instance scattered over the full period of registration, wherefore the last few days of the time has given the officers the hardest work. The largest registration is in the first ward, were fifteen hundred and twenty-two voters have qualified, while the smallest is in the third, were only eight hundred and thirty-five voters have been booked. The registration was largest at the city hall and was as follows:

First ward.....	688
Second.....	729
Third ward.....	670
Fourth ward.....	231
Fifth ward.....	211
Sixth ward.....	224

The registration by Mr. Cheshire on Alabama street was as follows:

First ward.....	498
Second.....	307
Third ward.....	108
Fourth ward.....	157
Fifth ward.....	144
Sixth ward.....	252

The registration by Mr. Haygood was as follows:

First ward.....	92
Second.....	38
Third ward.....	47
Fourth ward.....	723
Fifth ward.....	553
Sixth ward.....	889

The total registration, 6,767, is distributed among the wards as follows:

First ward.....	1,522
Second.....	1,071
Third ward.....	853
Fourth ward.....	1,041
Fifth ward.....	917
Sixth ward.....	1,340

The vote, of course, will not come up to the registration even if both parties bring out full tickets. So far there are no candidates except those who have been announced by their friends or put themselves forward. Three candidates are out for aldermen. They are Mr. Jacob Haas, Colonel Albert Howell, A.D. Adair, J. T. Gleam, H. H. Cabaniss and Mr. H. C. Stockell.

In the first ward Mr. James Stephens, Dr. W. A. Robins, Rufus King, S. C. Morley, Dr. E. J. Roach and Captain W. A. Fuller are announced.

Mr. P. J. Moran, Mr. Walter R. Brown and Mr. A. B. Bostick are out in the second ward. The third ward presents Mr. J. J. Fahey, Mr. J. G. Woodward, Mr. Amos Baker, Mr. C. J. Jones, Mr. W. W. Burnett, the last named a colored man.

S. A. Morris, G. W. O'Brien, R. J. Henry, W. S. Thomson, and Dr. J. L. Couch are the announced candidates in the fourth with seven others mentioned.

Thomas L. Bishop, Z. A. Rice and W. H. Bell, D. P. Morris are the candidates in the fifth.

The sixth comes forward with W. C. Phelps, George W. Hope, A. L. Waldo, J. L. Dickey and E. W. Roberts.

For two or three days past there has been considerable talk about a ticket the prohibitionists would put out. The leading members of the party when questioned about the matter have, however, professed ignorance of the proposition. At last night the committee of the party came to a conclusion, thoroughly alive to the best interests of Atlanta, and worthy in every respect.

As a friend of the working man, having come from the armen myself, and never gotten so far from it that I do not love the inspiration of its music, it affords me pleasure to testify to Mr. Fahey's judgment and character. He is a good man, I expect to vote for him in perfect confidence.

Thomas L. Bishop, Z. A. Rice and W. H. Bell, D. P. Morris are the candidates in the fifth.

The sixth comes forward with W. C. Phelps, George W. Hope, A. L. Waldo, J. L. Dickey and E. W. Roberts.

THE NEW CAPTAIN.

Sketch of Captain George B. Forbes, of the Atlanta Artillery.

The elevation of Lieutenant George B. Forbes to the captaincy of the Atlanta Artillery, is regarded as a wise act on the part of the commandant. He is a man whose members of that gallant corps will be glad to commandant will devote much of his time to the company and will strive to advance its interests in every possible way. The company is in excellent condition at present. Its battery is first class, and the men are thoroughly equipped and exceedingly well drilled. The discipline is exceptionally good.

Above is given an excellent likeness of the new captain. Who is there in Atlanta that does not know the genial George Forbes? He is one of the most genial figures in the community. Last year, newspaper men and others, in quest of information, always can get it by calling upon him.

The Forbes family emigrated from the highlands of Scotland about 1725. In 1747, Gilbert Forbes, George's immediate ancestor, was admitted to the bar in New York city.

He was in full accord with the cause of the colonies and served in the war of 1776. After that war he was successful in trade. His father, Gilbert Forbes, moved south in 1829, and settled at LaGrange, Ga., where he spent nearly the whole of his life. He was respected and beloved by all who knew him, and died recently for a number of years. He was the only one of his family who moved south and was a close relation of George Bruce, the type founder of New York city, (for whom the subject of this sketch was named) as he was closely connected with the father of Miss Kate Wood, who died something over a year ago, and was one of the wealthiest women of America.

The subject of this sketch entered the confederate army when a mere boy and orderly sergeant in the Columbia Light Artillery. He served four years and was many times complimented by his officers. He was passionately fond of the artillery branch of the service, and still prefers it to any other. As a driller master and disciplinarian he is very fine. His executive ability is also great. For the five or six years he has been in the southern country, he has most of the time in the office of the clerk of the superior court. At present he is the chief clerk of Judge Strong's and is thoroughly familiar with the details of the office.

He numbers his friends by the hundreds, and everyone congratulates both him and the Atlanta Artillery upon his elevation to the captaincy.

Lung Troubles and Wasting.

Diseases can be cured, if properly treated in time as shown by the following statement from D. C. FREEMAN, Sydney: "Having been a greater sufferer from pulmonary attacks, and gradually wasting away for the past two years, it affords me pleasure to testify that Scott's Emulsion of Cod Liver Oil with Lime and Soda has given me great relief, and I cheerfully recommend it to all suffering in a similar way to myself. In addition, I would say that it is very pleasant to take."

LAID TO REST.

The Funeral of Mr. Ed. White's Little Girl.

The wife of the bright and beautiful little girl of Mr. Ed. White, whose cutting off by death was a sad blow to the Constitution chronical yesterday, was laid to rest yesterday afternoon at two o'clock.

The funeral was held at the Purcell house, and a large crowd of friends of Mr. and Mrs. White was present.

The Rev. J. B. Hawthorne preached the sermon. His address was exceedingly touching. He referred to the child as one of the sweet singers of the Sunday school of the First Baptist church.

The coffin was covered with flowers and it was borne to the grave by six young men.

The bereaved parents have the condolence of their hosts of friends.

PATRIOSA.

Yesterday's Performances—A Few Words Relative to P. A. T.

Patti Ross had one of the biggest matinees of the season yesterday, and of course everybody was delighted with her. Clever? Well, rather! She's just about as clever as they make them, and that's saying a great deal, you know. In "Bob" she repeated the success she made in "Zip," and her audience was equally pleased.

But a word about "P. A. T." What an abominable rot that play is. "Bob" may not be quite so elegantly expressed, but it describes that play better than any other word in the English language. It is a shame to have so charming and capable an actress as Miss Ross in such a bad play, and one can't but hope that Miss Ross will sing "P. A. T." as soon as she can do so. Her voice is ever to come to life with it in the first place, and a mystery. Miss Faitz is a true actress, and she deserves an audience through an evening of "P. A. T."

Two members of Miss Ross's company are experienced actresses, Mrs. C. C. Cole, who is a clever comedienne, and Miss S. M. Moore, who is a good actress. The support is quite good. Mr. Duane and Mr. Francisco being especially so.

Always avoid harsh purgative pills. They first make you sick and then leave you constipated. Carter's Little Liver Pills regulate the bowel and make you well. Dose, one pill.

Go to 22 South Pryor street to see the great Hitchcock Lamp. It gives three times the light of any other oil lamp.

We offer a strictly all wool white Blanket at \$4.50, regular price \$6.50. Our \$5.00 Blankets all at \$3.25. The best \$1.25 Blanket you ever saw. M. Rich & Bros.

Atlanta Original Water Cure, 61 Wheat Street.

By Dr. F. Van Kote. For the cure of all chronic diseases. Diseases peculiar to the South. Neuralgia and rheumatism specially. Recommended highly by all. Fall and winter season best time for treatment.

Stationery and Novelties.

Albums, Scrap and Story Books, Paper, Envelopes, Pens, Pencils, Writing Desks, Games, etc., at half price at The Place, 10 Marietta.

The Birmingham News company, the enterprising agents of The Birmingham, Ala., have sent us a photograph of the building which shows that considerable taste is used in that magic city to attract customers. The display of leading periodicals on their bulletin is an index to their growing trade.

HOME OWNERS.

The Semi-Annual Statement of the Mechanics' Loan and Building Association.

You will see in another column the semi-annual statement of the Mechanics' Loan and Building association of this city. It is a satisfactory showing, and the association is found to be in a prosperous condition. We have time and again said that these institutions were doing well to build up and enrich their property than any other one cause and we here repeat it. Every laboring man and every capitalist should take sides. It is the best and surest way to build up our city. The company is in excellent condition at present. Its battery is first class, and the men are thoroughly equipped and exceedingly well drilled. The discipline is exceptionally good.

GREAT SLAUGHTER

Of Carpets this week. Second week of our 30 day bargain sale. Come early and get your choice of these beautiful goods at half price.

20 rolls fine Tapestry Brussels Carpet at 45 cents. Other dealers will charge you 65 cents for same goods. M. Rich & Bros.' great 30-day Bargain Sale.

THE SICK ROOM

Should be lighted by the Hitchcock Lamp. The light is silvery and mellow. No odor, no smoke. It cannot explode. It does not get hot.

Mr. Stephen A. Ryan now in New York buying the fifth stock this season. Business unprecedented at John Ryan's Sons.

For Christmas present buy one of the Hitchcock Lamps, on exhibition at 22 South Pryor st. Agents wanted in all the southern states.

At the Top.
Fetzer & Pharr, the clothiers at 12 Whitehall, are doing a fine business. It must be remembered that they have been in the clothing business but a short time, yet have built up a trade second to none in the city. They are strictly one priced clothes. Their goods are all marked in plain figures and any discount or assumed prices and you will invariably get what you pay for. This fact has had much to do with their success and they pride themselves on doing a square, honest and legitimate business. If you need clothing you can get the greatest and best bargains at Fetzer & Pharr's.

The celebrated Hitchcock Lamp on exhibition at 22 South Pryor street. Call and see it. All dress makers and tailors should have one.

John Ryan's Sons have a word to say to those wishing anything in the Dress Goods line, that they are now prepared to sell anything in the Dress Goods line fully 30 per cent less than any dealer could buy them for this season.

All people with weak eyes should have the Hitchcock Lamp. It will be a pleasure to you to read by it. It does not hurt the eye. No chimney to clean, and none to buy.

CHRISTMAS PRESENTS
For the Children. Rubber Dolls, Balls, Toys, etc., in great variety. Atlanta Rubber Co., 16 Decatur street, opposite Kimball House.

A Worthy Enterprise.
The Atlanta Wood Novelty works, established in our city, is deserving of worthy patronage from our citizens, as it is a home institution and are prepared to give better satisfaction than any other enterprise in the city. It has steam power, with all modern machinery, and a force of the number of thirty, their specialties are safes, suitcases and washstands in all styles. They also make furniture, sets of tables, chairs, sofa fittings, counters and shelving. Parties who are desirous of having work done in a satisfactory manner will find it to their interest to investigate their facilities before getting estimates elsewhere. Office, 23 Marietta street, Factory, corner Walton and Marietta streets.

For Dry Goods, Carpets, Millinery and Shoes, go to the importing house of Chamblin, Johnson & Co.

Young Men's Prohibition Club.
Meet in your hall Monday night, December 5th, at 7:30 p.m.

IT WILL PAY YOU
To see our Cloaks and Wraps. We have a \$10,000 stock. All must be sold by Christmas. Prices no object.

Come and we will prove this by giving you a bargain. M. Rich & Bros.

A PROCLAMATION.

By J. B. Gordon, Governor of said State.

We, the official information has been received at

the county of Fulton, that a murder was committed in

upon the body of Charlot Hightower, by some

person unknown. I have thought proper, therefore,

to issue this proclamation offering a re-

ward of one hundred and fifty dollars for apprehension

and delivery of said unknown murderer,

and evidence sufficient to convict, to the sheriff of

and to the state, civil and military, to be visited in

on him to prosecute the said murderer in order

that he may be brought to trial for the offence with

which he stands charged.

Given under my hand and the great seal of the

State of Georgia, this 6th day of December, in the year of our Lord, one thousand eight hundred and eighty-seven, and of the inde-

pendence of the United States of America, the 100th

and 21st.

J. B. GORDON, Governor.

N. C. BARNETT, Secretary of State.

COURT AND CAPITOL.

What was Done in the Departments Yesterday.

SOME TOUGH PRISONERS FOR THE PEN

Something About Home—Cases Before the Courts—Routine Work of the Departments, Etc.

Saturday is always a rather bad day for news about the various departments. Yesterday was, however, better than usual.

The Governor and His Cabinet.

COLONEL J. R. TOWER, principal keeper of the penitentiary, yesterday received from the clerk of the superior court this notification: "These are now confined in jail, it is estimated that during the past two years there have been 150,000 persons admitted to the prison, of whom 100,000 were released during the previous five years. The trade in this gem has reached enormous proportions. Thousands of diamonds are now found in cities of 50,000 inhabitants that a few years ago were never seen except in places of 150,000 population."

Magistrate rooms, duplicates of which are to be found in possession of perhaps only the crowned heads of Europe, have been brought to the American market and found ready sale, and the desire of our people to invest their money in an article which has a recognized value in the international market of world goods is manifested in the appreciation of the general interest felt in this subject. The Constitution reporter has succeeded in obtaining information of value. Approaching one of the members of firm dealing in these goods extremely, he inquired, "How is business?"

"Do you mean to say that many diamonds are sold in times of depression?"

"My experience leads me to think that many people invest in our goods during stringent times who would not during periods of general prosperity."

"Because of a lack of confidence in other investments where risk is attendant. Nothing, perhaps, yields its original cost so surely as a well bought diamond, and it is easily taken care of. The royalty of Europe have always been fond of diamonds, and they are easily sold because of their portability, and in times of revolution, such property is easily secreted or carried about one's person upon occasions of emergency."

"Speaking of the royalty, can you give me a correct idea of the value and size of some of the larger gems?"

"Yes; I have some sketches and data at hand that are authentic, the most valuable perhaps is:

BIG DIAMONDS.

Historical Gem—Their Actual Size Repro-

duced.

Never within the history of America has such widespread interest been manifested in the precious stones as during the past two years. It is estimated that during that time more diamonds have been sold in the country than were sold during the previous five years.

The trade in this gem has reached enormous proportions. Thousands of diamonds are now found in cities of 50,000 inhabitants that a few years ago were never seen except in places of 150,000 population."

"Speaking of the royalty, can you give me a correct idea of the value and size of some of the larger gems?"

"Yes; I have some sketches and data at hand that are authentic, the most valuable perhaps is:

THE KOH-I-NOOR.

Property of the Queen of England. Weighs 123 carats. Value, \$700,000.

The largest diamond that has ever been found in Brazil is the

STAR OF THE SOUTH.

Property of the Emperor of Brazil. Weight, 125 carats.

Other well known stones are

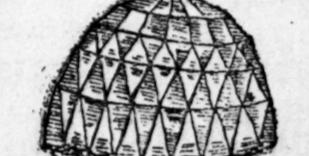

THE PIGGOT.

Property of Lord Piggot. Weight, 81 carats. Value, \$18,000.

The ORLOFF.

Property of the Czar of Russia. Weight, 193 carats. Value, \$400,000.

THE POLAR STAR.

Property of Princess You-soukooff. Weight, 40 carats.

THE REGENT.

Property of France. Weight, 137 carats. Value, \$648,000.

You are expecting a large diamond trade during the coming month?

"We have made every preparation for it. We have the largest stock of mounted and loose stones ever shown in Atlanta. The quantities in which we buy these goods enable us to offer them at prices lower than ever before quoted here."

"We are expecting a large diamond trade during the coming month?

"We have made every preparation for it. We have the largest stock of mounted and loose stones ever shown in Atlanta. The quantities in which we buy these goods enable us to offer them at prices lower than ever before quoted here."

"The CONSTITUTION reporter thanked Mr. Stevens, of the well known house of J. P. Stevens & Bro., for the information given, and wandering through their magnificent store, he was greatly pleased with the arrangement of the place.

In one showcase, the bottom of which represented twenty square feet, were diamonds exclusively. In another showcase equal as large, was shown 200 elegant stem winding watches.

Mr. J. P. Stevens & Bro. now have an interesting sale of Stevens' patent watches which they are shipping to all parts of the country.

Wherever one watch is sold, it makes reputation for itself, and creates a demand for others. They are now used on nearly all the railroads of the south on account of their accuracy and reliability under all circumstances.

The establishment of J. P. Stevens & Bro. is well known to Atlanta, and a place to be seen by all visitors.

Go early tomorrow to Miss Mary Ryan's, 45 Whitehall, and secure a bargain. She is offering her winter stock at cost.

We make loans on Stocks, Bonds and Real Estate and discount business papers. The Tolson Company, 29 East Alabama street.
